

# AFTER-SCHOOL LEARNING PROGRAM

## Rationale

The Philippine-Emirates Private School puts the highest premium in the safety and well-being of its learners above anything else. That is why PEPS deters learners to stay in the school past their school hours as they tend to run and play which usually resulted to them being hurt. However, in consideration also of the parents' needs to ensure the safety of their children in times when unexpected circumstances happen in their job and they could not come to pick up their children as they usually do, the Academic Department thought of a program to address this concern.

PEPS acknowledges the need of learners for play and other recreational activities but PEPS believes that these activities should contribute not only to the physical development of the learners but to their emotional, social, and intellectual growth as well.

## The Program

The program involves a special teaching sessions to one or small group of learners. A team of highly-qualified teachers will be organized to address the situation. This after-school learning sessions will revolve around guidance and assistance of learners in doing their assignments or to better understand the subjects which they find difficult. For those who have already mastered their particular topic, the session could serve also as an advance study session.

## Beneficiaries

**Learners who need to stay in the campus past their schedule from 12:00 to 3:40 p.m. are required to attend this program.** The monthly payment commensurate to the time spent by the learner are as follows:

- (1) 12:00 – 3:40 (3 hours & 40 minutes) = AED 900;
- (2) 12:00 – 2:30 (2 hours & 30 minutes) = AED 600; and
- (3) 2:30 – 3:40 (1 hours & 10 minutes) = AED 300.

The amount is intended to buy materials for the learning sessions and additional payment for the teachers.

## Benefits

While the teacher-tutors will not give grades, the learners will surely benefit from the guidance and assistance that the teachers will provide in doing their assignments, advanced lessons, or engage in the different activities related to the learners' lessons. They will also have the benefit of reviewing for their examinations. Aside from that, the learners will experience different types of teaching methods and strategies as the teachers in the team will take turn monthly to handle the learners. All of these will be done WHILE THEY ARE WAITING.

NOTE: This is not mandatory but for those who request to avail the program and signed the waiver only.
