November 27, 2019

Dear Parents,

Greetings!

Please be informed that our students will undergo Wechsler Intelligence Scale for Children (WISC) from Berlin Medical and Neurological Rehabilitation Center to allow teachers and parents to channel additional resources to students who need them most which is administered by a Specialized Doctor that will cost Five Hundred Fifty Dirhams (550Dhs)

It is one way of knowing and understanding students with their cognitive strengths and weaknesses so that teachers can tailor their teaching to maximize students' benefits.

Students with lower intelligence scores get the extra help they need while students with higher intelligence scores get more challenging and engaging coursework. Accurate intelligence measurement also allows parents to help their children improve their cognitive skills.

This test includes the following Intelligence Scale Assess:

1. Language Comprehension (Auditory Learner)
2. Attention and Concentration Memory
3. Visual Spatial (Visual Learner)
4. Quantitative Reasoning (Mathematics)

This test will also help to determine students in classifying Intellectual Disabilities, attention deficit hyperactive disorder, gifted and talented and learning disorder.

Thank you once again for your support, cooperation and kind understanding you have extended to Philippine Emirates Private School. We do appreciate your loyalty and benevolence to the school.

Thank you and God Bless Us All.

Yours Truly;

LALAINA C. RAGODON, MAED  
School Principal
