April 15, 2020

Dear Parents,

Greetings!

Please be informed that as per the attached ministerial decree, Distance Learning is now legislated and will continue until the end of the Academic Year 2019-2020. The respective term will officially start on April 5, 2020. This is a precautionary measure to avoid the spreading of COVID 19 (Novel Corona Virus) to make sure that our children are safe and protected.

The decree also mandated payment of tuition fees for the remaining terms to ensure that children receive their end year certificates and graduate from this grade/year.

Our teachers are working diligently during this time so because of this we really cannot give discount for our tuition fees for we need to give the complete salary of teachers for they work hard during this time and at the same time our school building even not in use we are obliged to pay for the rental, so we are appealing to every parent to please pay the tuition of your children on time.

Regarding the bus payment, we had done our best to help you, for this we would like to inform you that for bus payment , our bus company and the school management agreed that for the Month of April and May the last payment for our bus, a 50% discount is given to every student for their bus service. If your bus fee is already fully paid its your option if you want it to be credited for the next school year as down payment for your bus fee for the school year 2020-2021.

I thank you for your patience and understanding extended to Philippine Emirates Private School as we work collaboratively to make the best decisions for our children. We do appreciate your unquestionable loyalty and benevolence

Thank you.
