Dear Parents,

Warmth Greetings.

In the midst of rapid changes that have taken place in the short span of a few decades and despite demographic imbalances brought about by large-scale immigration and urbanization, the exceptionally diverse UAE society has managed to remain unified and has succeeded integrating modernity and globalization with traditional values.

In lieu with this, we would like to inform you that the Philippine- Emirates Private School (PEPS) is on its fifth (5<sup>th</sup>) year of implementing the Moral Education Program which enables PEPS students to be exceptionally tolerant, harmonious, caring, open and accepting individuals who embrace people from other cultures with notable grace and respect.

Moral education seeks to foster in students a set of universal values, which enable them to peacefully interact and connect with people from different cultural and social groups who hold diverse and contrary views and perspectives.

Moral Education is a lesson aimed at encouraging students to develop their character, explore their values and be better prepared for adult life. It is vital to you dear parents and guardians to be actively involved with your students and children at home in discussing the lessons taught. Engage, encourage and assess the development of your wards as their understanding of the concepts widens and they will adopt the most important changes within their character.

Many thanks once again for your usual support, cooperation and limitless understanding extended to the Philippine Emirates Private School. We do appreciate your incontestable loyalty and kindness.

**School Principal**
